Attention: Mr. Iso Nezaj

Subject: **Acceptance of FAA STC ST04009NY – Installation of an Automatic Dependent Surveillance – Broadcast (ADS-B Out) System on Boeing 737-300, -400, -500, -600, -700 and -800 Series**

Dear Mr. Nezaj:

This is in response to FAA's letter dated September 18, 2019 (FAA Correspondence#: 7A0-19-9207), requesting Transport Canada approval of the subject STC.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian registered aeronautical products.

This letter confirms formal acceptance of the referenced STC by Transport Canada.

Yours truly,

Henry Wong
Acting Technical Team Lead – Engineering,
Aircraft Certification
